

Transportation Asset Management Council
Quarterly Report

April/May/June 2005

1. The contract with Cambridge Systematics, Inc., to re-write the national asset management guide was initiated and the kick-off meeting was held on April 27th. Several additional meetings have been held between CSI staff and Council staff. Interviewees and schedules were set up and a guide for questioners was drafted. Interviews with state and local officials began the first week of June and have been completed.
2. Three pavement preservation classes have been held. The classes are conducted by the National Center for Pavement Preservation. The classes were held in Kalamazoo, Livonia and Lansing. There were 88 individuals who participated in the classes. Additional classes will be scheduled for the fall.
3. Training for the 2005 PASER ratings have been conducted by the Local Technical Assistance Program staff in cooperation with regional planning area staffs. Seven sessions were scheduled and completed during the month of June.
4. The Center for Geographic Information continued work on the development of an internet-based reporting process. Agencies have been selected to begin beta testing the process. The testing will begin in the very near future.
5. As of June 30th, the Council had expenditures totaling \$372,207.34.
